

An Invitation

GLOBE welcomes all students, teachers, scientists and community members to join and benefit from the international GLOBE community.

GLOBE Students

- Learn how to ask researchable questions appropriate to their grade level
- Plan and conduct meaningful environmental investigations
- Discover new information, data analysis and collaborative technologies to collect, compare, interpret, share and report their research findings
- Collaborate with scientists and students from other countries

GLOBE Teachers

- Connect to the international network of teachers, students and scientists
- Participate in professional development workshops on Earth system science topics
- Gain free access to the GLOBE Teacher's Guide, "how-to" videos, and other high quality resources from the Digital Library for Earth System Education (DLESE)

GLOBE International and U.S. Partners

- Collaborate on educational and community-based issues related to conservation, public education and sustainable development
- Participate in professional development workshops on proven GLOBE implementation strategies to facilitate teachers and students to do scientific research
- Gain information on local and regional funding opportunities

GLOBE (Global Learning and Observations to Benefit the Environment) is a worldwide, hands-on, primary and secondary school-based science and education program. GLOBE promotes and supports student-teacher-scientist collaborations on inquiry-based investigations of the environment and the Earth system.

National Aeronautics
& Space Administration

National
Science Foundation

U.S. Department
of State

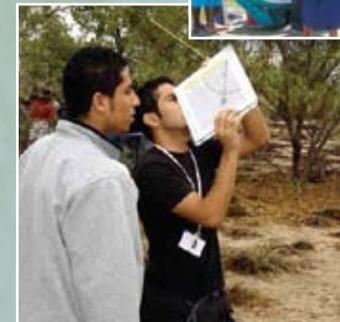

Funded by the National Aeronautics and Space Administration (NASA) and the National Science Foundation (NSF) and supported by the U.S. Department of State, GLOBE is implemented through a cooperative agreement between NASA and the University Corporation for Atmospheric Research (UCAR). Colorado State University (CSU) in Fort Collins, Colorado is a key partner in GLOBE, leading technical and Help Desk functions.

To learn more, visit the GLOBE Web site at www.globe.gov or contact help@globe.gov.
