Global STEM Education Center, Inc
US GLOBE Partner, GISN, IVSS, SRS
UNITAR Global Diplomacy Fellowship Program

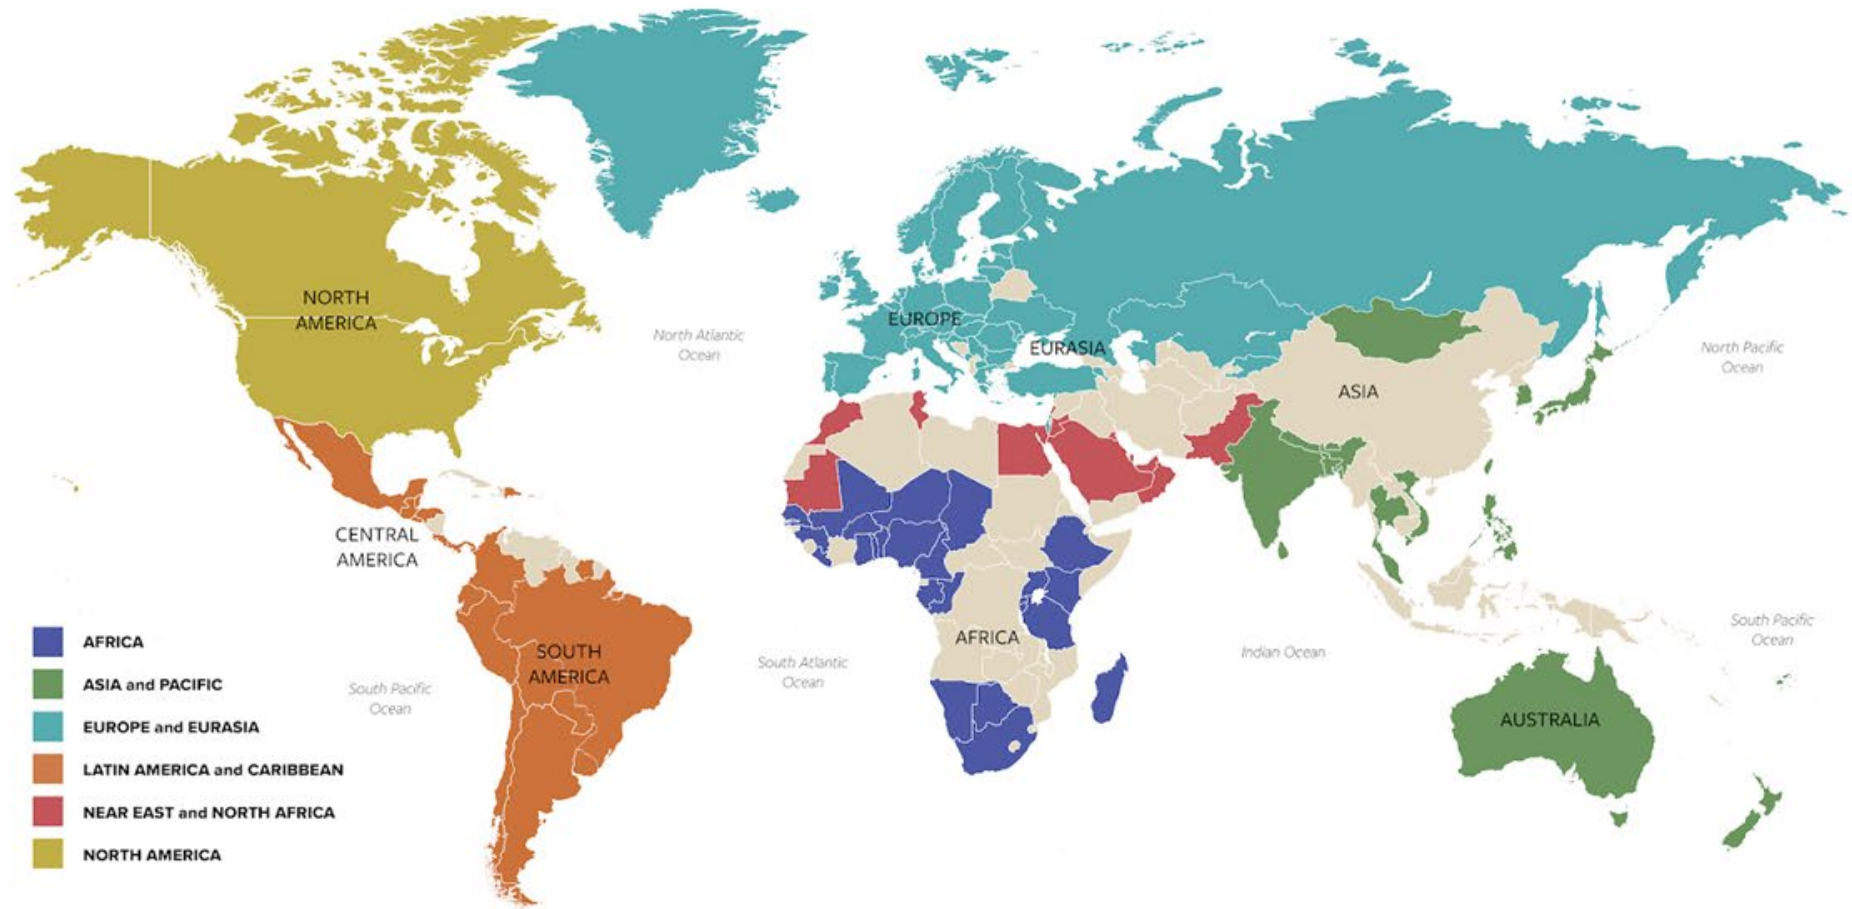

July 16, 2024

The GLOBE Program

#GLOBEMeeting2024

Session Goals:

- Deeper Understanding: Environmental science diplomacy and GLOBE's role.
- Global Leadership: How GLOBE exemplifies environmental science diplomacy.
- Educational Enhancements: Integrating UNESCO's Story Circle Methodology for better educational experiences.
- Global Collaboration: Promoting global cooperation and environmental stewardship.

Introduction to Environmental Science Diplomacy:

- Definition: Leveraging scientific knowledge and international collaboration to address global environmental challenges.
- Importance: Fostering cooperation and understanding among nations.

GLOBE Program as a Leader in Environmental Science Diplomacy

- Global Network: Students, educators, and scientists.
- Activities: Data collection, research projects, and educational exchanges.
- Impact: Advancing scientific knowledge and building bridges across cultures and nations.

Amplifying GLOBE's Impact with UNESCO's Story Circle Methodology

- Collaboration: Developed with SUNY Fredonia, University of the Western Cape, Stellenbosch University, Global STEM Education Center, Inc and the UNESCO Chair.
- Methodology: Enhances intercultural understanding and team-building among GLOBE educators.
- Benefits: Embracing cultural diversity and strengthening commitment to environmental science diplomacy.

Unique Training Session for GLOBE Educators

- Participants: Educators from the UK, US, and Africa
- Focus: Intercultural communication and collaboration.
- Outcome: Enriching the GLOBE program and reinforcing its leadership in global environmental education and diplomacy.

THANK YOU!!

We are happy to hear from you!
