

## Making History and Connections in the GLOBE Community!

Julie Houck

Elementary STEAM Teacher  
GLOBE Trainer

Our focus was on making connections!

Our speaker set us up to share about our connections!

We had formal, informal educators and many GLOBE trained participants as well as those completely new to GLOBE!

During the event two teachers were trained to become GLOBE trainers.

Our mayor came and helped welcome everyone to our town!

He has been a big supporter of GLOBE and the activities that I have done!

# The GLOBE Program

#GLOBEMeeting2024

Participants were able to be trained in atmosphere pedosphere, biosphere, and hydrosphere protocols.

## Protocols Connection

We traveled to many sites and shared real experiences!

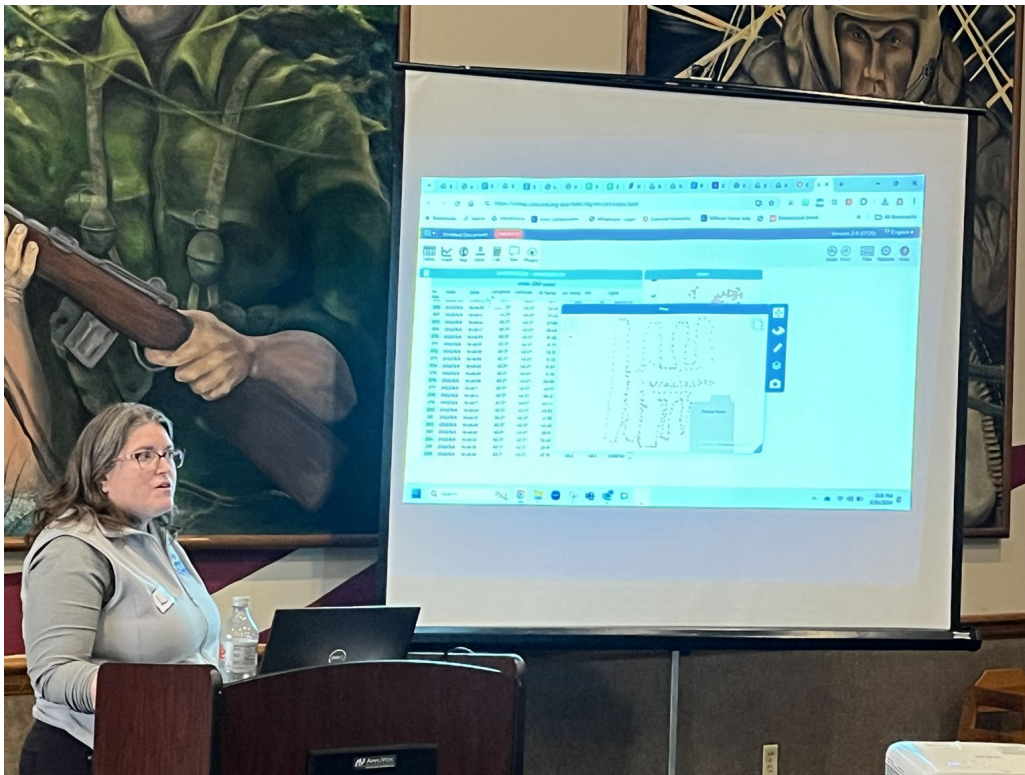

# The GLOBE Program

#GLOBEMeeting2024

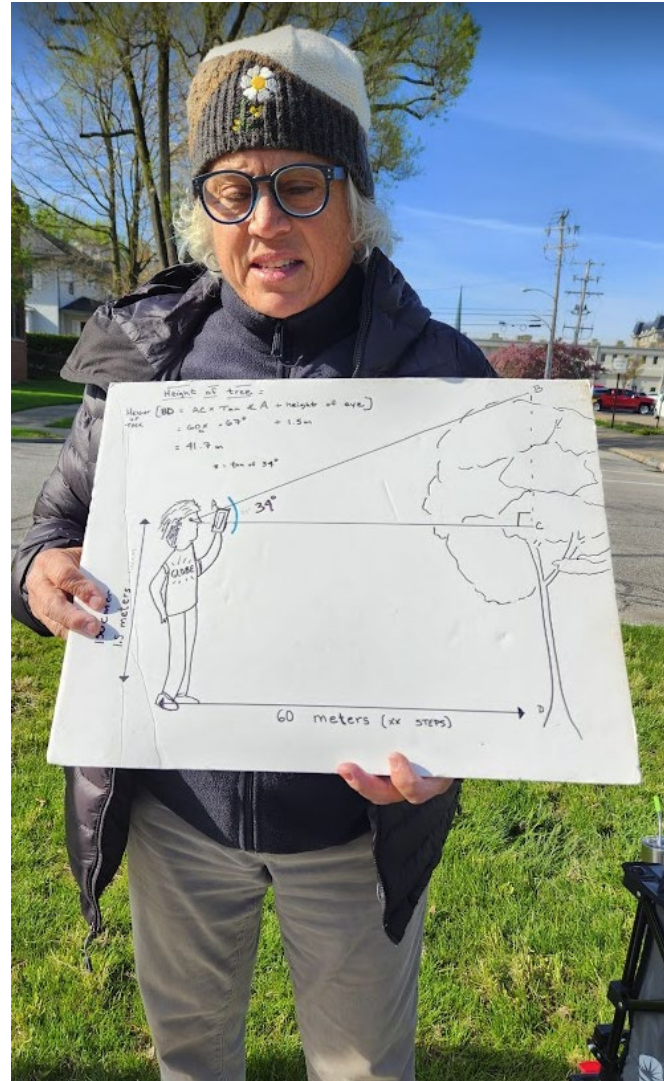

## AREN Connection

## Xcite Learning Connection

## MyNASA Data Connection

## Project Prairie and Toledo Zoo Connection

One participant who has attended other GLOBE trainings, said it was her favorite GLOBE training she has attended.

Other things shared about the training:

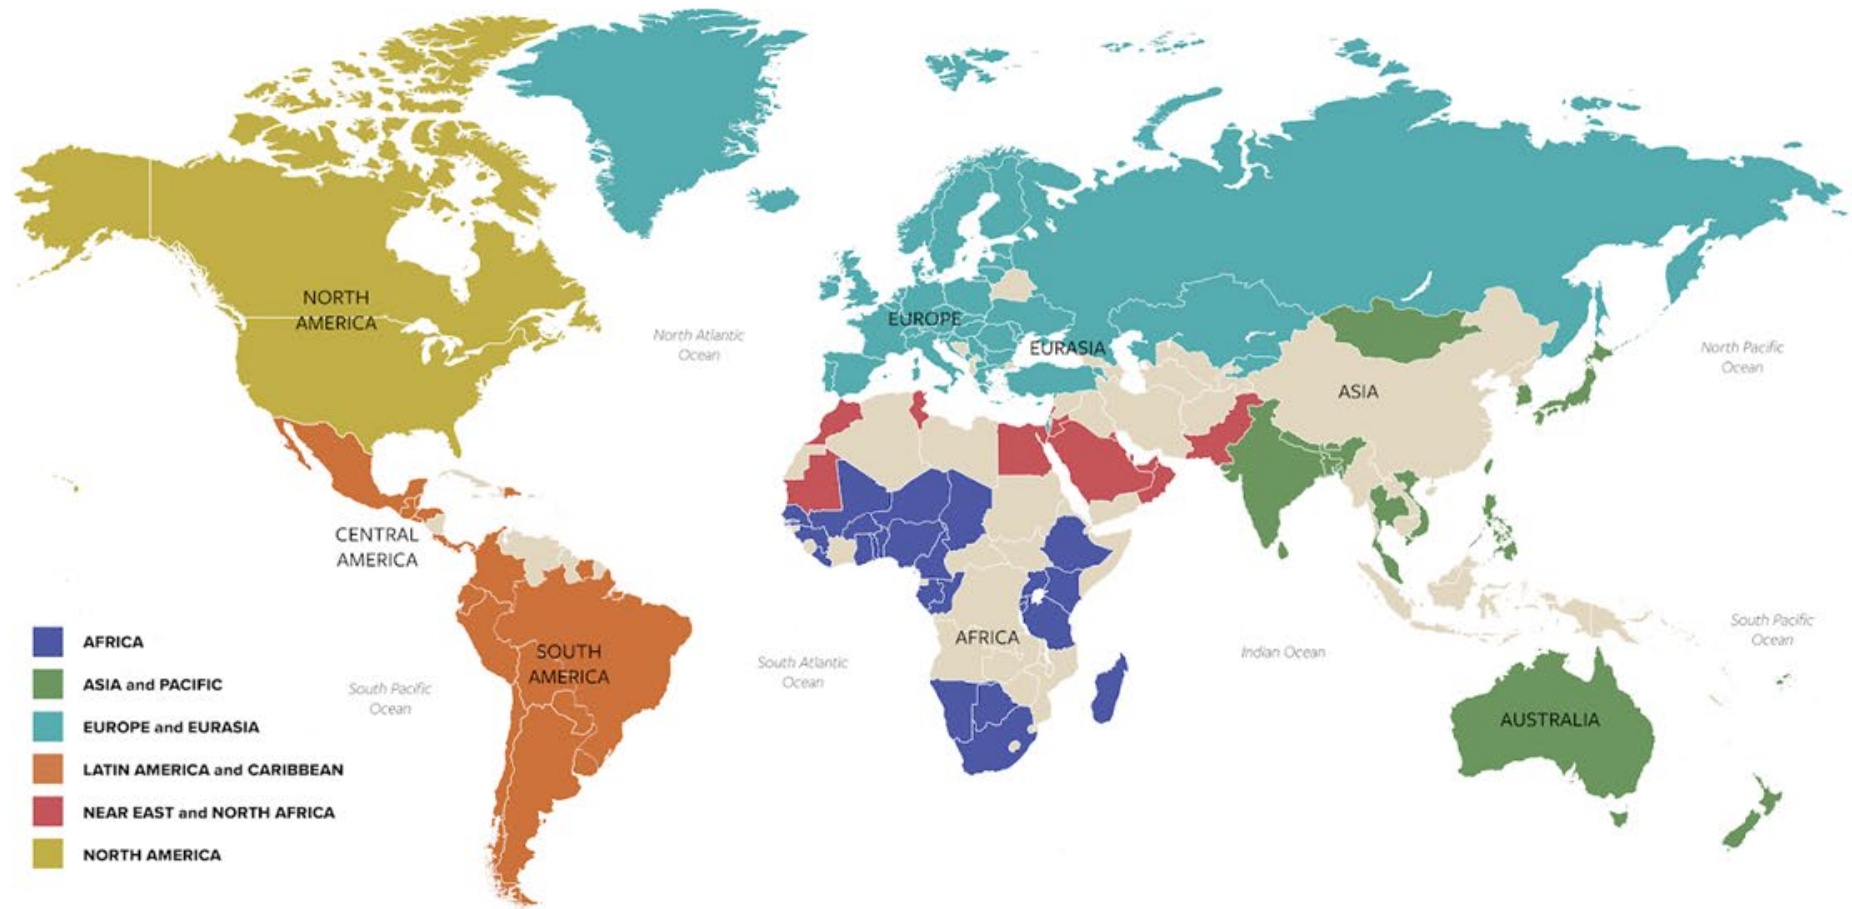

- sense of like-minded passionate educators
- hands-on learning
- deep well of GLOBE resources
- sharing of stories and experiences
- tours and working outdoors with excited and passionate teachers.
- remarkable and inspiring intersection between data/technology/learning!
