

ENJOY YOUR TIME WITH GLOBE Outdoors

Name your group:

Select 4 of 8 challenges below and have fun with your team!

Challenges with fixed location

01 Atmosphere

Look for a blue tarp. Classify cloud types (captured on the images) according to altitude. Talk about how clouds observations are done in your school/country.

02 Data Literacy

Interpret a GLOBE dataset visualization and answer questions. Briefly discuss the importance of data in scientific investigation.

03 Wish Board

Make a birthday wish for the GLOBE Program 30th anniversary – add it to the common wish board .

04 Knowing GLOBE

Guess the number of all

1. GLOBE countries:
2. Data entered worldwide:

Turn the page!

Choose your own location for

05 Being an Observer

Take a moment to quietly observe and record sensory details. Using finger "camera frame," note the variety of colors and textures. Then, close your eyes and focus on sounds and smells coming from the surroundings.

06 GLOBE Team Pose

Complete a fun group challenge! Pose as a group with each member balancing on one leg at the same time. Capture a group photo to commemorate the challenge for GLOBE's 30th anniversary

07 Exploration & Inquiry

Observe surroundings and note down at least 3 pairs of research questions and hypotheses inspired by the environment.

08 Tree Interview

Take the role of Tree reporters = record a 1 min interview with a tree. Choose your own topic/questions for the interview (e.g. GLOBE, history, culture or anything that sparks interest of your group)

Share your impressions and
Pick up you GLOBE badge!
