Interview with an oak tree

Hello, I am Luknė Jurčiukonytė, 5th grade tree supervisor at Vilnius Fabijoniškių Gymnasium. I will present to you my interview with the oak tree.

Me: Hello oak, how are you?

Oak: Hello, well... it's sad to be here alone. And you have friends?

Me: Yes, I have friends, why are you asking?

Oak: I never had any friends. You know, I stand here alone, year after year, and no one talks to me, everyone around me walks, rushes, but no one wants to be my friend.

Me: It's sad, but you're still important. After all, there would be no shade around without you, and you also help clean the air.

Oak: Thanks for reminding me of that. Yes, people may not notice my role, but I try to be helpful, however, sometimes I wish someone would at least stand by and tell me about their day.

Me: You would definitely have friends, and maybe we all just don't always notice your warmth and calmness. I know that if I were here more often, I would definitely chat with you.

Oak: That would be something. Sometimes I feel like some people don't understand how much I can give, but maybe I just don't always need friends, maybe it's not my goal to be a friend, I'm just here, and I hope that my presence means something.

Me: And this is very important, your calmness, your quiet presence, is perhaps the truest friendship that is needed.

TREE REPORTERS

Ginkgo biloba

WHAT'S YOUR NAME AND WHAT ARE YOUR MAIN FEATURES?

My name is Ginkgo biloba but I am famous under the name „tree of Ginkgo“. Im one of the oldest plant species on Earth, so im often called an „alive fossil“. I come from China and my species exists for more than 200 million years.

DO YOU HAVE MEDICAL PROPERTIES?

My leaves are used in medicine, especially in extract form which improves circulation (especially cerebral), helps with symptoms of dementia and Alzheimer's disease and its used to relieve symptoms of anxiety.

HOW DO YOU LOOK LIKE?

and my trunk circumference is 108cm. My leaves are characterized by a fan shape and a unique structure of calluses. In spring and summer my leaves are green but in autumn they turn golden yellow which makes them perfect for decorating.

ARE THERE ANY INTERESTING FACTS ABOUT YOUR SPECIES?

Trees of my species even survived the nuclear explosion in Hiroshima, which proves how much resilience we actually have. Ginkgo trees are often called the „tree of youth“ because of their positive effects on health and longevity.

WHERE AND HOW DO YOU GROW?

I'm located in front of the Medical school in Varaždin. I thrive in moderate climates. I am adaptable to different types of soil and I can survive in urban conditions which makes me a popular tree to have in parks and along the city streets. I am resistant to pollution, diseases and even radiation.

Varaždin was declared the European city of trees in 2024.

WHAT SYMBOLS EXIST IN RELATION TO YOU?

Ginkgo trees have been cultivated in China for thousands of years so we are considered a symbol of longevity and resilience. In Japanese culture, Ginkgo has a symbolic meaning connected with the past, present and future.

Medical school Varaždin, Croatia
Globe students,
teacher Mirela Turk Cerovečki

*I have been growing up
on the school grounds for
twenty years.
The children paid no
attention to me.
I was lonely.*

*The school has been
registered as a GLOBE
school since September
2023.*

I love GLOBE!!!

*And then I was noticed. In
the spring, students watch my
leaves unfold. In autumn,
children watch how the leaves
change color.*

Mr. Confident Tree

The Tree

Hi Becca!

Becca

hi? Who Are you?

Becca

And your nickname? you're The Tree?

The Tree

of course I am...and don't be that skeptical

Becca

wth? Are you kidding? I need to go, bye

The Tree

no you won't! I want you to chat with me!

Becca

why do you have a mobile phone?

The Tree

because I'm the special one

Becca

wow, I'm impressed...And confused

The Tree

don't worry! how was your year going?

Becca

Oh good

Becca

it was nice. me and my friends were working on a project globe and it was great.

The Tree

I know. I am your lovely tree!

Becca

Are you?

The Tree

yeah girl!

Becca

Becca
 fr?

The Tree
 I don't uderstand what fr does mean 😐

Becca
 FOR REAL

The Tree
 oh! thank you

Becca
 yeah that's ok.

Becca
 sorry, but I need to go! see you later

The Tree
 oh, you meant text you later! 😊

I want to say something, but I'll keep it to myself

The Tree
 Ok, so what's the clue?

Becca
 what? the clue?

The Tree
 yes I want to know what do you wanted to say!

Becca

Becca
 I wanted to say BYE

The Tree
 oh, you Sweet! bye!

Becca
 huh 🤔😐😐

The Tree
 something happened?

Becca
 ...

THE END
