

The Trees of Latin America and the Caribbean

“Celebrating the Connection between Trees,
Climate and People”

2025

GLOBE Program

GLOBE (Global Learning and Observations for the Benefit of the Environment) is an international science and education program focused on promoting scientific literacy and building connections between people passionate about the environment. The program has three main objectives:

- Increase the environmental awareness
- Contribute to greater scientific knowledge of the Earth
- Support the student achievements in science and mathematics.

By participating in the GLOBE Program, students, professors, researchers and citizen scientists can better connect with their environment and contribute to the global community to build a more sustainable future.

January 2025

This calendar was developed as part of the GLOBE Student Research Campaign
“Trees within LAC”.

This campaign contributes to the achievement of the following Sustainable
Development Goals

The logo icon for GLOBEPROGRAM features a stylized globe with a grid of latitude and longitude lines. Three silhouettes of people are shown interacting with the globe: one at the top, one on the left, and one on the right.
