

# Ruby-throated Hummingbird (RTHU)

## Feeder vs. Flower Visit Protocol Data Sheet

School Name: \_\_\_\_\_ Site: \_\_\_\_\_

Recorded By: \_\_\_\_\_

Date	Number of Visits							
Observation Start Time: (local time)								
Observation End Time: (local time)								
Observation Start Time: (UT)								
Observation End Time: (UT)								
<b>Adult Male</b> <i>full red throat</i> February-October (U.S., Canada) January-September ONLY (Mexico, Central America, Caribbean)	Feeder							
	Flower							
<b>Adult Male</b> (probable adult, but may be an advanced juvenile) <i>full red throat</i> October-December (Mexico, Central America, Caribbean)	Feeder							
	Flower							
<b>Adult Female</b> <i>white throat</i> February-April ONLY (U.S., Canada) January-May (Mexico, Central America, Caribbean)	Feeder							
	Flower							
<b>Undetermined Sex and Age</b> (could be female or young male) <i>white throat</i> May-October (U.S., Canada) August-December ONLY (Mexico, Central America, Caribbean)	Feeder							
	Flower							
<b>Undetermined Sex and Age</b> <i>throat not observed</i> Any time of the year (all locations)	Feeder							
	Flower							
<b>Young Male</b> <i>throat streaked in green or black and/or one or more red throat feathers</i> May-October (U.S., Canada) August-April (Mexico, Central America, Caribbean)	Feeder							
	Flower							

Observations are made in 45-minute time blocks. If no hummingbirds are seen, record "0" on the Data Sheet above and enter "0" on the data entry page on the GLOBE website.

For any “unusual” RTHU (i.e., one with “abnormal” plumage or one that is color-marked) record in the Data Entry page’s Comments section the color of the bird’s forehead, crown, throat, breast, belly, flanks, back, tail, bill, and eyes, and the location of other distinct markings. Describe the bird’s activity (including feeding behavior). Take a photo if possible. Also follow this procedure for any “vagrant” hummingbirds other than RTHUs from 15 October through 15 March. Please be sure to report any of these “unusual” and “vagrant” hummingbirds directly to [research@hiltonpond.org](mailto:research@hiltonpond.org) as soon as possible after sighting.
